Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims rejected under 35 U.S.C. 102(e) as being anticipated by Nolles et al. (US 2002/0033581, hereinafter “Nolles”).

In regards to claims 16-32 and 36-37, Nolles discloses a sealing profile which can be fixed on a component or a sliding roof cover (abstract). An adhesive connection region is over a planar outer side of the base area to attach the profile [0013]. The base area (first tubular member) 2 is formed as a hard molding, extruded from a solid silicone [0011]. The sealing area 3 (second tubular member) is produced from an EPDM microcellular rubber [0024]. The second tubular member co-extends with first tubular member (fig. 1). The first tubular member surrounds a hollow space (fig. 1). The sealing profile is produced by co-extrusion of the first and second tubular members [0024].

Nolles disclose that a friction-reducing coating is attached to the outer side of the second tubular member which is formed of a fiber material which can be applied by hot melt method [0010 and 0025]. The sealing profile is in a wound form and has a closed annular construction (fig. 1).

Response to Arguments

3. Applicant's arguments with respect to claims 16-32 and 36-37 have been considered but are moot in view of the new ground(s) of rejection.
4. Claims 1-15 and 33-35 have been canceled.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
